

CRAFTED

Crafted is a series of life-friendly hotels and clubs where guests and neighbours can be themselves and fill up on the good stuff: nature, food, wellbeing, craft, people and play. While each Crafted location is different in style, they're similar in substance: not an escape from life, but a return to it.

Located in East Sussex, TN33 – and quickly accessible from London – the hotel sits around a 7-acre lake within 78 acres of private ancient woodlands, streams, and old pastures that climb up a chalky hill. We're welcoming nature back and inviting you to come and share time and space with it. Whether as a hotel guest or local member.

Everything is designed to be physically comfortable, aesthetically pleasing, and naturally soothing. It's not austere or earnest, showy or too serious. It's simply somewhere that puts you at ease so you can get comfortable, let go, and go discover.
