# AETHOS ERICEIRA

Our hotel, a secluded property surrounded by nature, gazes over the Atlantic from a cliff. Our designers wanted to immerse guests in Ericeira's natural beauty while also creating spaces that feel modern, intimate and warm.

We drew inspiration from the tones and textures of the surrounding beaches, dunes and cliffs; and sought to maximize views of the ocean with large windows and natural light.

We have 5 indoor and outdoor spaces, all with natural light suitable for all types of events.
